

**FREE AGILE  
APPETIZERS  
INSIDE!**

**MEQIFY**

## **Academy Menu**

**The Menu can be served physically in Lund, at a customer site or online.**

**More information at  
[academy.meqify.se](https://academy.meqify.se)**

## Appetizers (one hour)

### Micro-learnings

([academy.meqify.se](https://academy.meqify.se))

Free

On our learning platform where we continuously publish material related to agile.

### Templates and Tools

([academy.meqify.se](https://academy.meqify.se))

We have collected our most used templates and tools to kick-start your agile teams.

### Agile Introduction

Inspirational seminar if you are curious about what this “agile” thing is all about.

### Scrum for Hardware

An introduction to our practical experience in using scrum to build physical products.

### Blueprint for the Agile Enterprise – Introduction

We believe in a bottom-up approach for transformation, but without any idea of where you might end up you will get lost. We have collected our experience in a “reference design”.

## Starters (½ day)

### Understand your Current State

To create a vision for the future you must understand where you are today. We help you assess your present situation.

### Plan your Transformation

We believe that transformation starts with a pilot team. We help you create an action list where to start your journey.

### Scrum for Hardware – The Game

Experience how the scrum framework can help you build physical products. You get a digital copy of the game afterwards!

### Creating Roadmap & Stories

We break down user scenarios into smaller pieces while still maintaining the bigger picture.

### Scrum Simulation

Learn the basics and experience the power of Scrum by building a village with LEGO.

## Main Courses (price per person)

### **Scrum for Hardware (with PSM certification)**

A two-day training where you learn the theory behind scrum, and how to use it in practice.

### **Agile Portfolio Management**

A two-day training about how to connect all parts of the company, from portfolio & steering to agile team deliveries to customers.

### **Agilt för Alla (in Swedish)**

A one-day workshop where you learn how you can use some key tools from the agile world within any organisation.

## Specials (½-2 days)

### **Customized Workshops**

We have years of experience in running workshops. Together we create something that is both valuable and fun!

### **Team Launch / Reboot**

A two-day workshop where you learn about agile, create your own team culture and define ways of working.

### **Agile Assessment**

We observe, interview, and gather information to quickly assess the organisational fitness and help you define your steps forward.

## Desserts

### **Agile Coaches**

Using our broad experience from Agile deployments, we coach your organisation to the next level of methods, practices and mindset.

### **Scrum Masters**

The scrum master has a toolbox of skills supporting teams to maximize their potential as a team and as individuals.

### **Agile Transformation**

Together with your leadership team we support with knowledge and experience throughout your agile transformation.

## MEQIFY Today

Today MEQIFY has 12 employees, with an office in Lund. We are now, if possible, even more convinced that there are better ways to practice product development than the traditional functional product organisation. More companies and industries are seeing how agile ways of working can increase their efficiency and productivity both on the market, and as employers.

We are now helping to shape the team-based organisations of the future, and we can see a long-term growth in our area of expertise.
